# About Us

Linta Technologies OPC Private Limited envisions bridging the gap between education and industry. We understand the pain of unemployment and are trying to wipe off the words of impossible and unemployment from the brains of youth by training and turning them into diamonds. We provide tailor-made, hands-on, and need-based programs on par with industry standards.

We believe that the youth of today is the future of tomorrow. And so our courses are tutored by experts from top industries who are passionate about mentoring the youth. Since its inception, Linta Technologies has earned the trust and gained recognition from thousands of learners across the state.

## Who Should Apply?

- ☒ Anyone from an IT or Non-IT background can apply
- ☒ Students
- ☒ Experts

# Why Us

**We are Success Trainers, Mentors, and Motivators with a passion for helping you be the best. We are warm and wise, positive and proactive, caring and daring, fun and focused. Our intention is always for your highest good and greatest growth. We make the learning just as enjoyable as it is powerful**

**1**

**Industry Standard Training**

**2**

**Solution-Focused**

**3**

**Affordable**

**4**

**Experience**

**we believe in making a difference**

# Why this ??

Easy to learn and Beginner Friendly

No prior programming knowledge is required.

We take special care of Non-IT students

This is for those who want to start their coding journey, whether a beginner or an expert.

The diversity of our learners adds richness to course discussions and interactions.

# Web Development Syllabus
